

Unlock Savings with Bridge Healthcare's ACE Solution

Alleviate Costly Expenses

ACE Your Approach to Single Patient Use Products.

In today's healthcare landscape, reducing costs while maintaining quality is crucial. Bridge Healthcare's **B-Safe ACE Solution** offers high-quality, clinically effective products that replace costly single-use items.

Expense Reduction

Stop Overspending on supply costs—potentially save hundreds of thousands of dollars with minimal effort from your team

Seamless Transition

Our **plug-and-play** products, and detailed planning process, ensure a smooth transition with minimal training, maximizing inventory and focus on patient care

Clinically Proven

Our design expertise, supported by **clinical data**, confirms our products achieve the same outcomes as expensive alternatives

Optimize Utilization

Review transfer and repositioning practices, introduce lower-cost, **task-appropriate alternatives**, and reduce total spend beyond product price

Comprehensive Product Offering

Lateral Air Transfer Systems

Safely move patients with minimal effort, reducing the risk of staff injuries

Repositioning Systems

Prevent pressure injuries through powered and manual systems

Slide Sheets

A simple alternative option to AIR transfer solutions

Rollboards

Advanced technology for safer, more comfortable transfer boards

Flojac

Air-Assisted Patient Fall Recovery Device

ACE your way to reducing expenses by scheduling a short call with one of our representatives. In under 15 minutes, we'll identify your overspend, and determine if our seamless transition process is a match for your facility!
