

Bridge Healthcare's B-Safe by Department

Ensuring Your Safety While
You Care for Others

Stay injury-free while doing your job.

Performing repetitive and strenuous tasks such as **Transferring, Boosting, Repositioning** and **Turning** patients increase your risk for injuries, burnout, and exhaustion. At Bridge Healthcare, we understand that each department faces its own unique challenges. That's why we've developed department-specific product solutions to reduce your risk of injury while making your job easier.

**The
Perfect
Fit for
Your
Department**
